

## Artistic Ice Demo by Howard Wood

1. Open image
2. Go to Image >adjustments, apply auto contrast, auto color, auto levels (This step is optional)
3. Images>adjustments, hue saturation. Increase Saturation for each color (about +50)
4. Make duplicate layer (command J); go to filter>blur>gaussian blur and set at approximately 18.
5. Change blending mode to overlay and flatten image
6. Go to filter>artistic>cutout and apply (5, 5, 3)
7. Go to Image Adjustment>posterize (4). This step is optional
